Number 1: Cognitive functions and cerebral metabolism

Editorial
D. H. Ingvar
Functional landscapes of the brain pertaining to mentation 1

J. Risberg, I. Prohovnik
Cortical processing of visual and tactile stimuli studied by non-invasive rCBF measurements 5

J. C. Mazziotta, M. E. Phelps, E. Halgren
Local cerebral glucose metabolic response to audiovisual stimulation and deprivation: studies in human subjects with positron CT 11

M. Reivich, R. Gur, A. Alavi
Positron emission tomographic studies of sensory stimuli, cognitive processes and anxiety 25

M. S. Buchsbaum, H. H. Holcomb, J. Johnson, A. C. King, R. Kessler
Cerebral metabolic consequences of electrical cutaneous stimulation in normal individuals 35

Free contributions
D. A. Werntz, R. G. Bickford, F. E. Bloom, D. S. Shannahoff-Khalsa
Alternating cerebral hemispheric activity and the lateralization of autonomic nervous function 39

S. E. Møller
Tryptophan and tyrosine availability: relation to food choice and sleeping habits of man. A preliminary study 45

Number 2: Regular contributions

H. Braak, E. Braak
Morphological studies of local circuit neurons in the cerebellar dentate nucleus of man 49

H. Fischer, K. Schwechheimer
Interaction of simian virus 40 with human glioma cells 59

O. Braddick, J. Wattam-Bell, J. Day, J. Atkinson
The onset of binocular function in human infants 65

J. G. Daugman
Visual plasticity as revealed in the two-dimensional modulation transfer function of a meridional amblyope 71

G. Tassinari, M. Morelli, G. Berlucchi
Interhemispheric transmission of information and verbal reaction-time tasks 77

J. Boschert, P. Brickett, H. Weinberg, L. Deecke
Movement-related potentials preceding toe plantarflexion and dorsiflexion 87

O. Benoit, J. Foret, G. Bouard
The time course of slow wave sleep and REM sleep in habitual long and short sleepers: effect of prior wakefulness 91

R. A. Roemer, C. Shagass, R. C. Josiassen, J. J. Straumanis, S. M. Slepner
Rheoencephalographic concomitants of cognitive engagement in nonpatients and schizophrenics 97

Number 3: Neurobiology of communication

Introduction
D. Kimura
Neurobiology of communication 103

R. L. Holloway
Human paleontological evidence relevant to language behavior 105

E. Strauss, B. Kosaka, J. Wada
The neurobiological basis of lateralized cerebral function. A review 115

S. F. Cappa, L. A. Vignolo
CT scan studies of aphasia 129

C. A. Mateer, C. B. Dodrill
Neuropsychological and linguistic correlates of atypical language lateralization: Evidence from sodium amytal studies 135

M. K. Ajersch, B. Milner
Handwriting posture as related to cerebral speech lateralization, sex, and writing hand 143

D. Kimura
Speech representation in an unbiased sample of left-handers 147

U. Bellugi, H. Poizner, E. S. Klima
Brain organization for language: clues from sign aphasia 155

A. Kreindler, A. Fradis, L. Mihailescu
Quantitative studies on speech characteristics of aphasics. A statistical approach to vocabulary 171

D. H. Ingvar
Serial aspects of language and speech related to prefrontal cortical activity. A selective review 177

M. Studdert-Kennedy
On learning to speak 191

Regular contribution
H. Schreiber, M. Lang, W. Lang, A. Kornhuber, B. Heise, M. Keidel, L. Deecke, H. H. Kornhuber
Frontal hemispheric differences in the Bereitschaftspotential associated with writing and drawing 197

Number 4: Central motor control

Introduction
G. Baumgartner
Central motor control 203

P. E. Roland
Organization of motor control by the normal human brain 205

J. N. Sanes, E. V. Evarts
Motor psychophysics 217

M. Wiesendanger
Pyramidal tract function and the clinical 'pyramidal syndrome' 227

M. R. DeLong, G. E. Alexander, A. P. Georgopoulos, M. D. Crutcher, S. J. Mitchell, R. T. Richardson
Role of basal ganglia in limb movements 235

C. D. Marsden
Motor disorders in basal ganglia disease 245

V. B. Brooks
Cerebellar functions in motor control 251

J. Massion
Postural changes accompanying voluntary movements. Normal and pathological aspects 261

J. Dichgans
Clinical symptoms of cerebellar dysfunction and their topodiagnostical significance 269
